Social skills and competences

- Team work: I have worked in various research teams and most of my major publications were resulted from working in a team. Presently as Project manager in Portugal I am also coordinating a team.
- Good ability to adapt to multicultural environments, gained though my work experience abroad: I performed scientific work in various countries, especially in Greece, Portugal and Italy and this gave me the ability to adapt very quick to multicultural environments and, on the other hand, gives me a better understanding of the multicultural issues in general.
- Good communication skills: First of all I am a University Professor and I have to deal with a lot of students (series from 20 to 200 students), so human communication is in some sense my job. On the other hand, I have also a very large experience in participating to I international meetings since I have participated in the last five years to more than 25 such meetings in Italy, France, Spain, Portugal, Bulgaria, Romania, Canada where I presented communications that were usually extremely well received by the audience.

Organisational skills and competences

In my home University (Galati University) I a was for a period of 4 years (2008-2011) Institutional responsible with structural Funding and I was leading a team of more than 20 people.
As NEARPORT project manager in Portugal I was leading also a team of 7 persons
I am currently supervising PhD and Master students in both Romania and Portugal

Technical skills and competences

I am University Professor in Engineering, so it is supposed that I have accumulated during the time considerable competencies and skills in various technical areas related to my main fields of expertise (Marine and Mechanical Engineering, Renewable Energy).
Moreover, due to my current scientific work I have special competences as regards environmental data measurements and analysis. During my work at NATO, I had the opportunity to enter in contact with the most evaluated tools and techniques related with environmental data analysis and measurements.

Computer skills and competences

- very good command of Microsoft Office tools (Word, Excel and PowerPoint);
- good command of graphic design applications (Paint Shop Pro, Photo Shop, etc)
- extremely good command of Matlab (I developed computer software that is currently used by NATO as reflected also by the publication: A Hybrid Framework for Predicting Waves and Longshore Currents, http://dx.doi.org/10.1016/j.jmarsys.2007.02.009 Journal of Marine Systems 69 (2008) 59–73.

Other skills and competences

- I have a great capacity of concentration on my work and focus on the most essential issues. This is reflected somehow also in my list of publications;
- I have been member in various scientific committees (for example IMAM – International Maritime Association of the Mediterranean 2005, 2007, 2009, 2011)
